☰ Skills:

Programming Language Skill: **HTML, CSS, SCSS, JavaScript, TypeScript.**

CSS Framework: **Bootstrap.**

JavaScript Frameworks: **Angular.**

Tools: **Git.**

📁 **Work Experience:** I have over 2 years of experience working at Platform Commons Organization. My journey began with an internship from April 11, 2022, to November 30, 2022, and I transitioned to a full-time role on December 1, 2022, continuing to the present.

I have been part of the Volunteer Management System (VMS) group as a Frontend Angular Web Developer, working on both the user and admin sides of the application. I have been involved in this project since the very beginning.

This application is used by multiple clients, and we implemented customizations based on their specific requirements. Additionally, the application allows clients to easily make many changes themselves through the admin panel.

📄 **Personal Projects:** Please visit <https://arnab-khan.github.io/#/work> to view my personal projects.

🎓 **Education:** M.Sc. in Physics (2020)

Midnapore city college - Vidyasagar University

🌐 **Languages:** English, Hindi & Bangla.
